# Introduction

ABRET is a nonprofit credentialing board. ABRET supports the concept of voluntary certification by examination for health care professionals in with advanced practice experience in reviewing and accurately describing EEG and long-term EEG patterns and associated clinical scenarios. The knowledge tested will relate specifically to identification of:

1. complex brainwave patterns including those that are subtle or difficult to recognize,
2. the clinical pictures associated with these patterns as appropriate to the patient's history and the current scenario,
3. the medications associated with these patterns or clinical scenarios (as related to treatment and as related to potential direct impact upon the patterns),
4. the recording techniques utilized to obtain the patterns and their impact upon the patterns, as well as the utilization of specific montages to enhance viewing of subtle aspects of the brainwave patterns,
5. environmental and other factors that may impact the EEG patterns in the ICU or other inpatient areas, in the home, and in outpatient testing locations.
6. The candidate will be tested on their critical thinking and communication skills as applied to advanced EEG pattern recognition for patients of age one (1) year and older, to provide preliminary findings of brainwave testing along with their clinical context, as appropriate, utilizing standardized 2021 ACNS and 2017 ILAE terminology.

## Scoring

The Board set the passing standard as the number of test questions it determines to be necessary for candidates to answer correctly in order to be considered at least minimally competent. This method focuses on the particular test that is being administered. Different forms of an examination are matched for difficulty and content coverage. This comprehensive approach makes use of information about the performance of similar groups in the past.

ABRET is concerned with reporting only valid scores. On rare occasions, misconduct or circumstances beyond the individual's control may render a score invalid. If doubts are raised about a score because of these or other circumstances, ABRET reserves the right to cancel any examination score if, in the sole opinion of ABRET, there is adequate reason to question its validity.

## Report of Results

Approximately 3-4 weeks following examination date, candidates will receive an email when the **OFFICIAL** test result has been uploaded into their ABRET Certemy account. Scores on the major areas of the examination and on the total examination will be reported and mailed to the candidates.

\* Please do not contact the ABRET office about your results until you receive your **OFFICIAL** test results. You will not be able to reapply until the OFFICIAL test results are in.

## Examination Challenges

Candidates may comment in the appropriate section at the end of the examination about any test question or questions, test procedure, and/or the test itself. Alternatively, a candidate may submit a complaint in writing to the ABRET Executive Director no later than fourteen (14) calendar days after taking the examination. All challenges and complaints will receive ABRET's full attention. Comments regarding examination validity will be reviewed by the ABRET examination committee. Examination materials shall not be available for review by candidates.

## Confidentiality

1. ABRET will release the individual test scores **ONLY** to the individual candidate.
2. From time to time, it may be necessary for the ABRET Executive Office and Board of Directors to disclose candidate information and/or scores. No material or information disclosed will be released to any unauthorized person.
3. ABRET provides ASET – The Neurodiagnostic Society with the names, addresses, and emails of passing candidates. Candidates may opt out by contacting ABRET.

## Attainment of Credential

Eligible candidates who pass the Certification Examination for NeuroAnalyst-CLTM will be certified for a period of five years and will be authorized to use the NA-CLTM designation, subject to compliance with ABRET's Code of Ethics, rules, policies, and procedures, and standards of practice of ABRET. They will receive a time-limited Certificate and be eligible for recertification after five years. If not recertified, they will no longer be permitted to use the NA-CLTM designation.

## Purpose of Standards

ABRET has developed the *Code of Ethics* and the *Grounds for Disciplinary Action* to articulate standards of conduct required for eligibility of ABRET credentials, microcredentials, and continued credentialing of EEG, EP, CNIM, CLTM, CAP, CMEG, and NA-CLTM technologists. Maintenance of board certification will require adherence to these and other ABRET rules. Individuals who fail to meet these requirements may have their certification suspended or revoked.

ABRET does not guarantee the job performance of any individual.

## Quick Tips After Achieving Your Credential
